Primary Examiner, Art Unit 1793

A new oath or declaration is required because the inventors listed and signatories thereof do not match the corrected filing receipt requested. The new oath or declaration must properly identify the application of which it is to form a part, preferably by application number and filing date in the body of the oath or declaration. See MPEP §§ 602.01 and 602.02.

Applicant is now required to submit a substitute declaration or oath to correct the deficiencies set forth above. The substitute oath or declaration must be filed within the THREE MONTH shortened statutory period set for reply in the "Notice of Allowability" (PTO-37). Extensions of time may NOT be obtained under the provisions of 37 CFR 1.136. Failure to timely file the substitute declaration (or oath) will result in **ABANDONMENT** of the application. The transmittal letter accompanying the declaration (or oath) should indicate the date of the "Notice of Allowance" (PTOL-85) and the application number in the upper right hand corner.

In the parent 08/678252, the original inventors were Neuman, ATHEY and Stewart-Davis. On 12-15-1997, a petition was filed to replace ATHEY with LECOQ. There is no record that the petition was ever acted on. There is no oath signed by Newman, LECOQ and Stewart-Davis in 08/678252. 08/678252 issued 7-7-1998 with Neuman, ATHEY and Stewart-Davis printed on the face as inventors. No Certificate of Correction is of record. The current application was filed 4-9-1998 as a Division of 08/678252 with Neuman, ATHEY and Stewart-Davis listed as the inventors in the Oath filed therewith. This application includes a preliminary amendment asking that the inventorship be amended to replace ATHEY with LECOQ, but does not include a new

Art Unit: 1793

oath signed by the new inventor(s). In a communication filed 5-26-1998 applicant requested a corrected filing receipt replacing ATHEY with LECOQ among other corrections. Action on the correction is awaiting the filing of a proper oath.
